A CORRECTION BY KLINEFELTER

Editor News.

which I desire to corect.

The clipping stated that I was in charge of the Quay county exhibit at the El Paso Fair. The reporter who turned in the matter may have guessed the matter off on the basis of avoirdupois, but any way it was an error.

The credit of having taken the Quay county exhibit to El Paso and installing it at the fair belongs entirely to Mr. C. H. de Yampert of your city, and I want the people to know it.

Mr. and Mrs. de Yampert devoted all their time to the work of explaining the exhibit to visitors and were tireless in their efforts to put Quay county in the most favorable light.

The matter of entering for premiums was all left to Mr. de Yampert and the excellent showing in the matter of awards is a Lestimonial to his good judgment. I do not believe that two more faithful and efficient represents tives could have been found.

Whatever work I did was mainly in other channels, and while I helped as much as possible in the capacity of "barker" at the exhibit, I did not at any time consider myself in charge, and in fact I don't think it ever oc curred to Mr. de Yampert that he was, In fact, we were all too busy to think of it. We all worked harmoniously for one purpose-to boost Quay Co.

I write this wholly without the know ledge of Mr. and Mrs. de Yampert, solely for the reason that I believe the exhibit was a success, and that by far the greater eredit of it belongs to Mr. and Mrs. de Yampert, a fact which the clipping referred to failed to bring out.

Respectfully, L. L. Klinefelter.

DIRECTORS' MEETING
